Index

Volume 10, 1978

		Page
Presidential Address: In perspective	M. B. Clark	1
Lighting for the security of premises	J. E. Baker & S. L. Lyons	10
The CIE visual performance system	A. W. Levy	19
Experimental approach to high-pressure sodium lamp design	P. L. Denbigh	28
Influence of impurities on pre-breakdown phenomena in the gas phase of discharge lamps containing mercury	G. Bergman	33
Proposed changes to the SI system of photometric units	O. C. Jones	37
National Illumination Committee of Great Britain: Annual Report		41
Trotter-Paterson Memorial Lecture: Laser light in aesthetics and industry	J. N. Butters	61
The light switch in buildings	V. H. C. Crisp	69
Use of glass in electric lamps	O. Adams	83
Variability of contrast rendering factor in lighting installations	P. R. Boyce	94
Operation of metal-halide lamps on square wave supply	R. Hall	106
The role of the driver's vision in road safety	P. A. Davison	125
Effect of 2-dimensional fluctuations in observations of colour differences	A. G. Stainsby	140
Lighting of occupants and objects within an interior	A. R. Bean	146
Studies concerned with improvement of the low pressure sodium discharge lamp	A. G. Jack	150
Prescriptive appraisals	J. A. Lynes	156
Fluorescent lamps with very high luminous efficiency	L. E. Vrenken	161
The CSI lamp as a source of radiation for solar simulation	E. J. G. Beeson	164
Is equivalent sphere illuminance the future?	P. R. Boyce	179
Medical uses of radiation from lamps	B. W. Jewess	184
Optimization of road lighting installations by the use of performance sheets	W. J. M. van Bommel	189
Standardization and quality assurance in the lamp industry	B. J. N. Jansson	196
Modelling indicators for combined side and overhead lighting systems	A. R. Bean	199
The use of metal-halide discharge lamps for film lighting	E. W. Taylor	203
Some aspects of the design of incandescent GLS lamps	J. R. Coaton	225

Research Notes

Diagram for estimating solar shading	P. R. Tregenza	114
Halogen incandescent lamp incorporating a coiled tungsten ribbon	J. Bezemer, J. R. de Bie and R. L. A. van de Heliden	167

Correspondence 176

Abstracts 50, 116, 169, 230

New Publications 57, 122, 236
